

Quick Installation Guide

4G LTE Mobile Wi-Fi
M7200

Install the SIM Card and Battery

1 Remove the back cover.

2 Insert your SIM card.

- A micro or nano SIM card must be converted using a SIM card adapter.
- SIM card and SIM card adapter are not provided.

3 Install the provided battery.

4 Note down the default SSID and Wireless Password. Then replace the cover.

Connect to the Internet

1 Press and hold the Power button  until all the LEDs are lit. Wait until the Internet LED  turns solid green. If not, please refer to FAQ > Q3.

2 Connect your wireless device to the Mobile Wi-Fi using the SSID and the Wireless Password you have noted down.

• By default, Power Saving is enabled and the Mobile Wi-Fi will turn off the Wi-Fi when no wireless devices are connected to it for 10 minutes. To resume the Wi-Fi connection, press the Power button.

Charging Your Mobile Wi-Fi

Method 1

Via a Wall Outlet (Recommended)

Method 2

Via a Computer

- The Battery LED (Battery icon) is solid green when the Mobile Wi-Fi is fully charged.
- The power adapter is not provided by TP-Link.

tpMiFi APP

Download the **tpMiFi** app to conveniently manage your Mobile Wi-Fi.

- Modify Wi-Fi settings
- Manage power
- Send and receive SMS
- Block Wi-Fi devices

How to start?

1. Search for the **tpMiFi** app from App Store or Google Play, or scan the QR code.

2. Connect your wireless device to the Mobile Wi-Fi.
3. Launch **tpMiFi** and enter **admin** to log in.

LED Indicators

LED	Status	Explanation
Wi-Fi (Wi-Fi)	On	Wi-Fi is enabled.
	Off	Wi-Fi is disabled.
Internet (Internet)	On	Internet service is available.
	Off	Internet service is unavailable.
Battery (Battery)	On	Power is on.
	Off	Power is off.
	Blinking Red Blinking Green	The battery level is lower than 10%. The Mobile Wi-Fi is charging.

- The LEDs will turn off automatically after idling for 30 seconds. To check the LED status, press the Power button to turn them on again.
- If the Battery LED blinks red when the battery level is enough or when charging, make sure the device is being used within 0-40 C and the battery is inserted.

FAQ (Frequently Asked Questions)

Q1. Is there an alternative way to manage the Mobile Wi-Fi besides the tpMiFi app?

A. You can manage the Mobile Wi-Fi by using its web management page.

1. Connect your wireless device to the Mobile Wi-Fi.
2. Launch a web browser and visit <http://tplinkmifi.net> or <http://192.168.0.1>. Enter **admin** to log in.

Q2. What should I do if I cannot log in to the web management page?

- A1. Verify that your device is connected to the Mobile Wi-Fi.
- A2. Verify that you have entered <http://tplinkmifi.net> or <http://192.168.0.1> correctly.
- A3. Verify that your computer is set to obtain an IP address automatically.

Q3. What should I do if the Internet LED (Internet icon) doesn't light up (I cannot access the internet)?

A1. Check PIN status

Refer to Q1 to log in to the web management page on your phone. If the current SIM card status is **PIN Locked**, you will need to unlock it using the PIN code.

A2. Verify the mobile carrier parameters

1. Refer to Q1 to log in to the web management page on your phone. Go to **Dial-up > View profile details** and verify the parameters (i.e. APN, username and password) provided by your mobile carrier are correctly entered.

2. If the mobile carrier parameters are not correct, return to the **Dial-up** page and create a new profile with the correct information. Then choose the new created profile from the Profile List.

A3. Check the Data Roaming settings

If your SIM card is operated in a roaming service area, refer to Q1 to log in to the web management page on your phone. Go to **Dial-up** and enable the **Data Roaming** option.

A4. Check Mobile Data

Refer to Q1 to log in to the web management page on your phone. Go to **Dial-up** to verify that **Mobile Data** is On. If not, enable it.

A5. Check Data Limit

Refer to Q1 to log in to the web management page on your phone. Go to **Device > Data Usage Settings** to check whether your data usage has exceeded the Total/Monthly allowance.

Q4. What should I do if my internet speed is slow?

- A. Refer to Q1 to log in to the web management page on your phone. Go to **Device > Advanced > Network Mode** and try a different network.

Q5. How do I restore the Mobile Wi-Fi to its factory default settings?

A. With the Mobile Wi-Fi powered on, remove the cover and then use a pin to press and hold the **Reset** button until all LEDs turn on momentarily.

Note: Resetting the device to its factory defaults will clear all previous configuration.

Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device.
- Do not use damaged charger or USB cable to charge the device.
- Do not use any other chargers than those recommended.
- Do not use the device where wireless devices are not allowed.
- Do not disassemble, crush, puncture, short external contacts, or dispose of the battery in fire or water.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
